

Report on “ Leadership Undo – Unlearning to Lead Better ”

Date: 10th February, 2026

Time: 8.30 am-3.15 pm

Event Overview:

The ISTD Chennai Chapter, in collaboration with Sri Venkateswara College of Engineering (SVCE), conducted an immersive leadership workshop titled **“Leadership Undo – Unlearning to Lead Better.”**

Designed primarily for first-year engineering students, the program focused on reshaping conventional ideas of leadership by encouraging participants to unlearn outdated habits and adopt more empathetic, reflective, and collaborative approaches.

The workshop blended structured learning with experiential activities such as role-swap interview simulations, leadership case analysis, communication labs, and guided feedback sessions. The objective was to build confidence, enhance communication skills, and prepare students for real-world academic and professional challenges.

Event Highlights:

The workshop functioned as a dynamic leadership lab where students actively explored the nuances of communication and team dynamics.

Key highlights included:

- Interactive rounds such as **“Say It Without Saying It,” “Audience Decoder,” “Emotion Switch,”** and **“Communication Post-Mortem,”** which encouraged creative and adaptive communication.
- Practical exercises requiring students to tailor the same message for varied audiences - peers, parents, faculty, and management - emphasizing tone, empathy, and clarity.
- Reverse-analysis case studies where teams examined leadership failures (such as missed deadlines or team conflicts) and redesigned improved strategies focusing on accountability and collaboration.

The central message resonated clearly throughout the program:

“Effective leadership begins with unlearning rigid mindsets, communicating with empathy, and continuously improving through reflection and teamwork.”

Presentation & LinkedIn Evaluation Session:

The first session was conducted by **Shanthosh**, Event Executive, Student Chapter. Students had been instructed earlier to create and bring their LinkedIn profiles for evaluation.

During the review session, students received constructive feedback on:

- Professional profile photographs and headlines
- Writing impactful summaries
- Showcasing achievements effectively
- Adding relevant skills, certifications, and projects
- Common mistakes students make
- How recruiters assess LinkedIn profiles

The session helped students understand the importance of building a strong digital professional identity early in their academic journey.

Academic & Postgraduate Guidance Session:

The academic guidance session was delivered by **Srinath S**, General Secretary, Student Chapter.

He shared valuable insights on:

- Preparing early for postgraduate education
- Effective study methods and conceptual clarity
- Time management and exam preparation strategies
- The importance of consistency and long-term career planning

The discussion encouraged students to approach their undergraduate years with clarity, focus, and a strategic mindset.

Abroad Education Guidance:

The session on international education opportunities was conducted by **Sriram A**, President of the Student Chapter and **Vandhanaa Devi**, Vice President.

They guided students on:

- Planning for overseas education during undergraduate studies
- Understanding university and country options
- Entrance examinations and documentation requirements
- The benefits of global exposure and expanded career pathways

The session provided clarity and direction for students aspiring to pursue higher education

abroad.

The Undo Button (Leadership Activity):

Coordinated by **Ashish Jude**, Department Coordinator, this activity focused on leadership accountability and reflection.

Objective:

To help students identify leadership mistakes, understand cause-and-effect relationships in decision-making, and redesign more effective leadership strategies.

Process:

Students were divided into teams and assigned failed scenarios such as project delays or event breakdowns.

Instead of immediately solving the issue, they were asked to:

- Diagnose root causes
- Identify leadership and communication gaps
- Analyze accountability breakdowns
- Rebuild improved leadership approaches

This reverse-thinking model strengthened students' understanding of responsibility, empathy, and collaborative problem-solving.

Leadership Communication Studio:

This session featured multiple experiential rounds designed to enhance communication skills.

“Say It Without Saying It & Audience Decoder”

Conducted by Prem Kumar, Outreach Executive.

Students creatively communicated concepts without directly stating them and adapted messages for different audiences.

Skills Developed:

- Creative communication
- Audience awareness
- Language adaptation
- Team coordination

Feedback Session:

Students shared overwhelmingly positive feedback, appreciating the experiential and interactive learning format. The valedictory function marked the successful completion of the

program, with appreciation extended to all coordinators and participants for their commitment and enthusiasm.

Vote of Thanks:

The Vote of Thanks was delivered by Sri Ramana Kishore K, Content Executive, Student Chapter, expressing sincere gratitude to the speakers, coordinators, volunteers, and participants whose collective efforts ensured the program's success.

Participant Experience:

Participants engaged actively across sessions, demonstrating curiosity and openness to learning. The blend of reflection, digital evaluation, communication practice, and leadership analysis created a holistic learning experience.

Students particularly valued the hands-on approach, which enhanced their confidence, interpersonal skills, and clarity about leadership responsibilities.

Conclusion:

The “Leadership Undo – Unlearning to Lead Better” workshop successfully reinforced the importance of self-awareness, adaptability, and empathetic communication in leadership.

By combining structured guidance with practical activities, the program provided students with meaningful insights into both personal and professional development. The workshop concluded as a memorable and impactful initiative, equipping young leaders with the mindset and skills required to navigate their academic and future professional journeys with confidence.
